Elementary Enjoy New Classrooms

by Sara Whitley

The elementary classes are enjoying their new classrooms this year. Most would agree that the new rooms are much nicer and very appreciated by the students and teachers.

When some students and teachers were asked how the old classrooms compare to the new classrooms Lacey Herd, Brian Moesner, and Sarah Wilson all agreed that they like it better because there is more room and they have more fun. Jim Fisher thinks that they are much cleaner and more efficient. Jeremy Nichols likes it better, but was hoping for more computers. Abby Payne and Amber Smith like them better because they are cooler and they have more room to play.

Mrs. Ross, fourth grade teacher, responded on how the new classrooms are very beneficial. She said these classrooms are much cleaner, airy, and nice. She said it is different getting adjusted to being out away from the rest of the school, but they all enjoy having a section of the school to themselves.

Mrs. Christy Bevel, sixth grade teacher said that her class agrees there is no comparison between the new classrooms and the locker rooms or the trailers which were their previous classrooms. She also enjoys having all of the elementary together in one building.

This year Chadwick has two new teachers.

Mrs. Illana Snelson is the new science teacher. She is a first-year teacher who attended College of the Ozarks. Mrs. Snelson earned an academic scholarship which paid 90% of all her schooling. She paid the other 10% by teaching biology labs on campus and running her own lawn care service for two summers and working in the tourism industry. She graduated Summa Cum Laude. She has no children, but does have a cat named Chatty. Her husband Ron is an accountant. They are currently living in Hollister.

Zoila American Speer, the music teacher, was born in Managua, Nicaragua Central America and came 24 years ago to the United States as a recipient of an International scholarship to study piano and voice at Southwest Missouri State University. Mrs. Speer graduated in 1973 with a Bachelor of Music Education with certification to teach K-12 Vocal and Instrumental music. Presently Mrs. Speer is completing a second degree to teach Spanish in the school. Languages have been very important in her life and career. She grew up speaking Spanish and English and during her musical training has taken courses in French, Italian, and Portuguese. This influence on foreign languages has been due to Mrs. Speer's love of operas and classical music.

Mrs. Speer's hobby is singing, she sings at Schweitzer Methodist Church, belongs to the Springfield Music Club, and helps with the Regional Opera and sings at various other churches for special programs.

Mrs. Speer has 4 children, Claire, Frontine, Erica, and Andrew. She also has a granddaughter, Ashley. Her husband Gary also is a musician.

New Faculty and Administration

by Jason Gilbert and
Terry Mitchell

Chadwick school has a new superintendent, Mr. Ron Wagner.

When Mr. Wagner was asked about his educational background, he said he went to high school at Honey Creek in Southeast Nebraska. He then went on to college at Nebraska State and then to a teaching college in Peru, Nebraska. He was an honor student and played football. He has his Masters Degree in Industrial Arts, he has done graduate work at Maryville and has his Specialist Degree, which he earned at the University of Missouri.

Mr. Wagner taught Industrial Arts for 25 years. Since then he has been a superintendent for 9 years. He has coached football, basketball, and baseball.

He says he is still in the business because it is enjoyable, it gives him self-satisfaction, and he likes being around people. Mr. Wagner lives at Sparta with his wife Gloria. He also has one daughter.

by Tonya Rozell

The Kindergarten class is off to a great start with 23 boys and girls.

They have been practicing following directions, doing eye-hand coordination activities and have been learning the names of the letters of the alphabet along with the sounds of the letters.

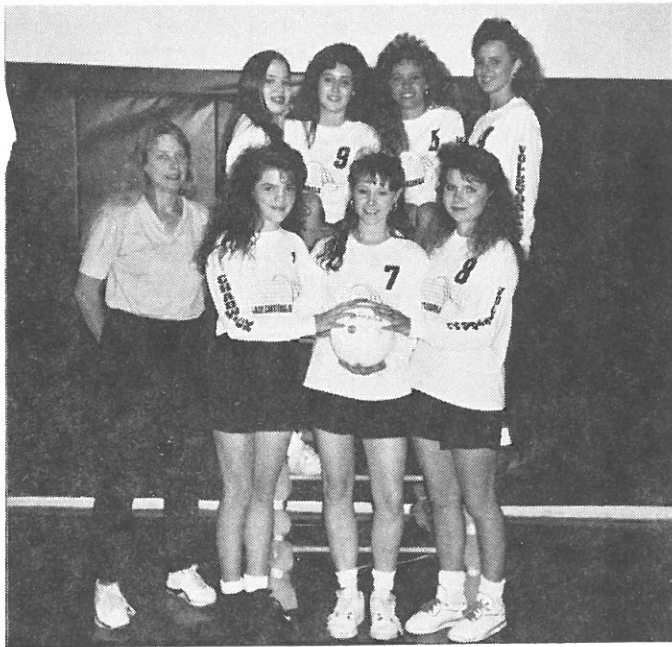

Casey Gardner, Matthew Burkhart, Stacy Bilyeu, Brady Herd, Scott (Bub) Payne, and Robbie Bollen all agree that their favorite part of school is to play on the playground. Another favorite activity, according to Alexis Davis, Courtney Jones, Craig Thomas, Misty Adams, Drew Rozell, Jesse Burkhart, Jeremy Achors, and Heather Walker is drawing and coloring. Haley Guerin, Betty Mitchell, and Steven George have the best time when they cut and glue. Joshua Finney and Lindsey Widner's favorite part of the day is lunch time. Janet Morgan said she likes to run (Mrs. Long will take care of that). Katy DeWitt is already becoming a good student, her favorite part of school is learning.

This class has just started the first of 13 years of their education. We wish them good luck!!

This year CHS students are sharing the halls with many new people. One in particular is visiting us from Tokyo, Japan. She is a Foreign exchange student. I talked with her and she commented, "I like it here because the teachers and the students are very close". She believes that it's a little tougher to be here compared to her school back in Japan. Her school in Tokyo only had 3 grades so she isn't used to being around kids of all different ages. She has one older sister whom she misses a little. Her home while she is here is with another CHS student, Casey Ayers. I think that everyone here at CHS is glad to have her be a part of us. Welcome aboard Tomomi!!

Drug Free Council Attend Camp

By Crystal Gilbert

This summer Tessa Nalley, Kevin Jackson and I spent a week at camp Wokonda attending the Southwestern Regional Teen Institute. The purpose of the camp was to teach us about alcoholism and drug dependence, peer pressure, and other problems involving teens. Sessions we attended included Communicating with parents, Nicotine, and Teen Pregnancy, to name a few.

Our day would start out with breakfast, which wasn't as bad as you might imagine for camp food. We would then sit through many sessions of lectures. After lunch we would have group activities and two hours of recreational time to play basketball, swim, or take a nap. Dinner and more sessions would finish off our day. To make camp more fun, a dance was held and the Acky Breaky Heart was taught.

According to Tessa Nalley camp was awesome. The people had feelings! When I left I was crying! I met a lot of inspiring people and are still writing half of them. If you gave the chance to go I'd grab it!

Kevin Jackson said that camp was really fun this summer. I met a lot of people and made a lot of life long friends. We learned all about all kinds of things like Aids, Communicating with parents (which we all need) and dating. We also played a lot of games, including one where we tried to get the other teams flag. In that game my team won because I got the flag from Crystal's team.

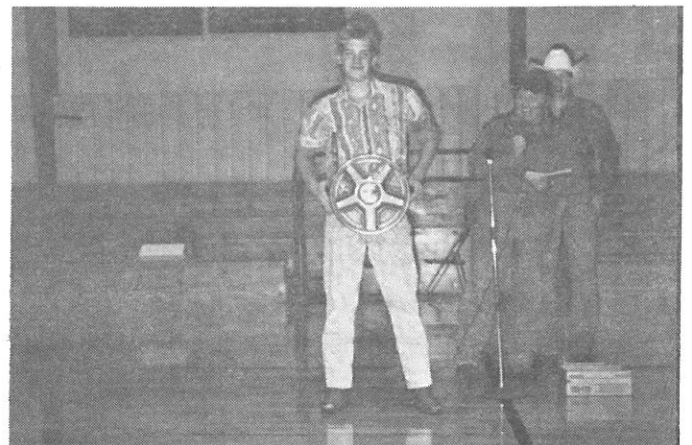

Crystal said that besides the rain that flooded a couple of cabins and made the camp grounds a swamp, it was a great place to spend a week.

The Drug Free Council, which consists of Tonya Rozell, Marvin Guerin, Kevin Jackson, Christal Gilbert, Tessa Nalley, Daphne Walker, Justin House, Tyler Walker, Jeremy Gilbert, and Sponsor Toni Walton organized the second annual Drug Free Week.

Students were encouraged during the week to live drug free. Activities during the week included: Monday-Warm Fuzzy Day, Tuesday-Reverse Day, Wednesday-School Colors Day, Thursday-Western Day, and Friday-Favorite Halloween Costume.

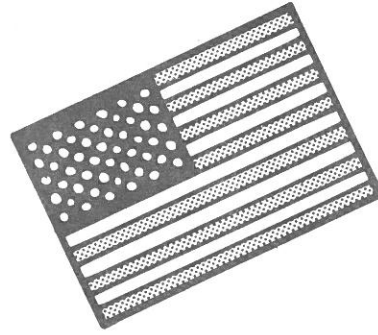

On Thursday an assembly was held for students in grades K-12.

Matt Coffey wins the Biggest Belt Buckle Contest.

Christmas Program December 22

Student Body Election

"Christmas in Foreign Lands and Home" by Aline M. Cowan and Frances T. Crowley will be presented at Chadwick Schools on Tuesday December 22 at 7 PM.

The play presents Santa Claus taking a trip to several countries of the world observing how each country celebrates this festive occasion. As we travel with Santa Claus we will hear songs in different languages sung by solos and the different classes from Kindergarten through Sixth grade.

The program will also feature the seventh grade singing various carols.

The high school will present songs ranging from traditional to more popular tunes.

We hope everyone will join us in this music Christmas celebration.

Art News

Congratulations to Tyler Walker and Misty Fintel who placed in the Southwest District Art Teachers Association fall meeting and Jr. High Art Show. Art works by Chris Anderson, Chad Sallee, Greg Stevens, and Tessa Nalley were also entered.

The current events class would like to thank the faculty and students for their participation in the Student Body Election. The turn out was a great success with 110 registered voters and 105 casting ballots on October 29. The results were similar to the official election results held on November 3.

We would like to thank Junior Combs, Christian County Clerk, for his presentation and providing us with actual voting booths.

The current events class feels that the election was very educational for everyone involved.

CURRENT EVENTS

Steve Long Instructor, Misty Fintel, Laura Nelson, Tonya Rozell, Melissa Loomis, and William Peak.

?? Question of the Month ??

by Jason Gilbert

In the past few weeks many people have been asked a couple of puzzling questions. Here are the questions and the responses from some of the students and faculty.

"What would you do with a **Gerkin**? and What would you do with a **Xyster**?"

Responses to **Gerkin**:

Terry Mitchell-put a dress on it and take it to prom

Matt Coffey-put a sequin suit on it and make it an Elvis impersonator

Tamara Thurman-put it down the garbage disposal

Don Lee-burn it

Rebekah Watts-gargle with it

Melissa Loomis-chew it up and spit it out

Raymond Stevens-drive it to school

Mrs. Horton-if it is edible, she can't have it

Mrs. Snelson-eat it

Jason Stutesman-throw in the back of his truck and take it to Micky's

Marvin Guerin-spit it out

Daphne Walker-take it for a ride and lose it

Kim Blevins-look it up in the dictionary to see what she has

Shawn Guerin-marry it

Tessa Nalley-talk to her

Responses to **Xyster**:

Terry Mitchell-put it on a piece of bread between two pieces of cheese and feed it to Josh Gilbert

Matt Coffey-give it a poofy hairdo, put a lot of make-up on it, and take it out on a date

Mrs. Smith-put a band-aid on it

Melissa Loomis-microwave it

Raymond Stevens-put it in the back of his truck and haul it around

Mrs. Horton-she is an only child, she never had a brother or a Xyster
Rebekah Watts-vacuum something up with it

Mrs. Snelson-put it on a radio

Jason Stutesman-bury it in Matt's back yard

Tamara Thurman-slap her upside the head and send her to her room

Marvin Guerin-kick it in the head

Daphne Walker-feed it your Reeses Peanut Butter cups.

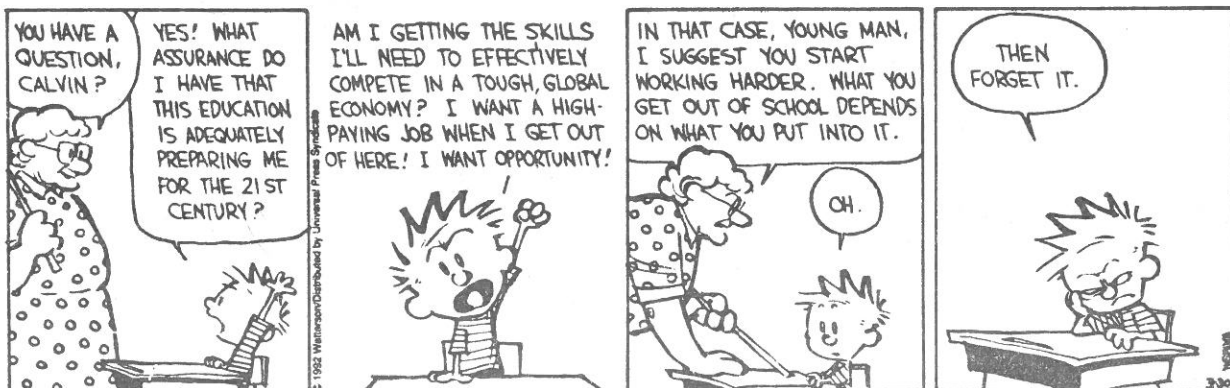

Shawn Guerin-use it to play basketball

Tessa Nalley-eat it

Now the moment of truth to find out what everyone was doing these things with. A **GERKIN** is a type of cucumber, and a **XYSTER** is a medical instrument used for scraping bones.

CALVIN AND HOBBS

By Bill Watterson

Test Your Trivia

by Tonya Rozell

It's time to test your trivia skills! The first person to correctly answer the following questions on a sheet of paper and present it to the business room, will receive a small prize. So put on your thinking caps and go to it!

1. In communications, what do the letters CBS stand for?
2. What do the members of the society of Friends call themselves?
3. Who was the first woman to make a solo flight across the Atlantic?
4. What was Ferdinand Magellan's achievement in the 1520's?
5. How much money did the U.S. pay for Alaska per acre, and from what country did we buy it from?

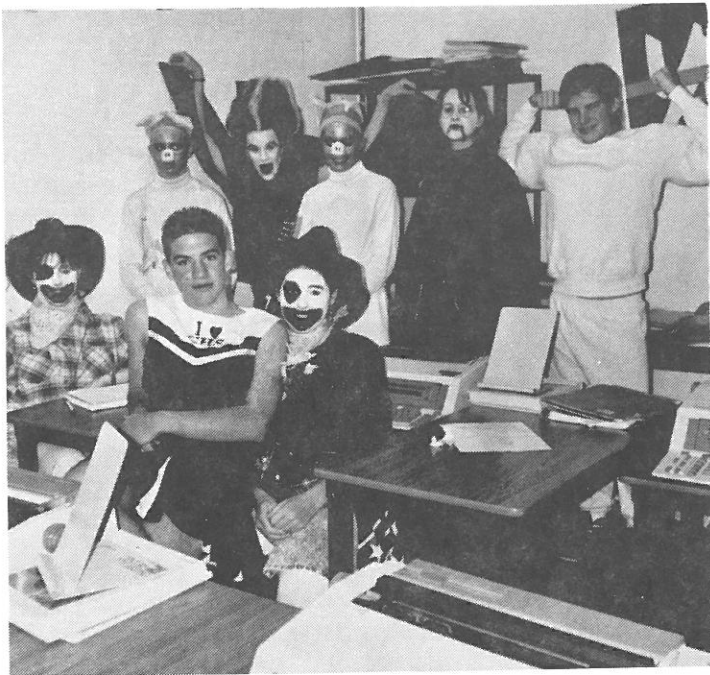

Weekends

By Misty Fintel

Weekends, it is the two days that people love the most, it's a break from the hustle and bustle of the week. But, what do people do on their weekends to relax and unwind? I asked some C.H.S. students and teachers what they do on their weekends, here are some of their responses: Laura Nelson said she does absolutely nothing since her boyfriend joined the Army for six years. William Peak cruises the town in what he says is the fastest truck in Chadwick. Matt Coffey goes to Ozark and cruises the once popular town, scoping out beautiful women like Ginger and Amy. Raymond Stevens works whenever possible, and of course spends time with his girlfriend, Misty. Marvin Kinyon, Tamara Thurman, and Brandy Maggard all go bowling for fun on their weekends, of course Randy Dollarhide tags along to give Brandy support. Mrs. Walton has very hectic weekends, they are so hectic they can't even be explained. Mrs. Horton says on her weekends she finds new "country" songs for Matt Coffey and William Peak to listen to, she also finds new "cool" places for them to buy their clothes. I personally, have a very boring job at McDonalds in which I work very hard pushing those buttons, after work I try and spend what little time I have left with Raymond.

So, as you can see everyone has their own way of spending their weekends. Whether it be more hectic than the week, or not, everyone agrees they can't wait for those weekends to come.
